Welfare Concerns We continue to respond to a high number of these types of incidents, which often take up a considerable amount of time of officers. These incidents can vary from persons suffering from mental health concerns to elderly members of the community requiring assistance. We work alongside partner agencies to deal with the incidents in a timeously manner as possible ensuring individuals speak with the relevant agency.	
5. Road Safety (Drink / Drug Driving, Speeding, Disqualified / Uninsured Driving)	We continue to receive a number of reports in relation to road safety. These range from speeding complaints, parking complaints, vehicle breakdowns. We received a small number of complaints re: minor road crashes where driver error appears to be the common factor. Numerous complaints regarding parking and speeding vehicles. This is an area where officers are giving passing attention to where possible and deploying with the speed gun to detect and deter speeding.	
Up-coming events		
Other Matters / appeals	We would encourage residents to report incidents of youth disorder in order that we have an accurate picture of hot spot locations and can deploy resources at key times / days. Whilst we often receive complaints of 101 waiting times, especially during peak times, the Police Scotland website can also be used for reporting incidents. We also welcome any information in which the public is able to provide in relation to drug supply, this is a particular area which we are pro-actively targeting.
